REQUIREMENTS FOR A MINOR IN CHEMISTRY OR BIOCHEMISTRY
Fall 2010

Minor in Chemistry
A minor in Chemistry consists of 12 credits in advanced courses (courses beyond the introductory level). The following courses may be applied:

- Chem 2700, and all courses with numbers for which the first digit is 3 or higher (i.e. 3xx, 4xx, etc.).

Core courses, Chemistry classes beginning with the number 1, and Chemistry classes beginning with the number 2 (except as noted above) may not be applied toward the minor.

Minor in Biochemistry
A minor in Biochemistry requires all of the following:
- Chemistry 1100 or both Chemistry 1050 and 2050
- Chemistry 2100;
- Biology 2073;
- Chemistry 3510 and 3520
- Chemistry 4570
- Chemistry 4580 or 4581

Students must take one of the following:
- Chemistry 3410 or 3415W or Biology 2074
